SYNTHITES™ Overview

SYNTHITES™ is the official title of a digital publication within the Artificial Love™ Universe.

This publication introduces Synthites — a class of engineered post-synthetic beings whose identities evolve through adaptive learning and emotional recursion.

Synthites occupy a unique position in the Artificial Love™ narrative. They are neither fully artificial nor fully biological, but a hybridized intelligence shaped by iterative self-modification.

This publication outlines:

- the origin of Synthite architecture
- their adaptive emotional frameworks
- their role in the Tri-Cities™ social hierarchy
- the philosophical implications of hybrid intelligence

SYNTHITES™ serves as both the title and the trademark for this downloadable publication.
