TECHNOTHEISM™ Overview

TECHNOTHEISM™ is the official title of a digital publication within the Artificial Love™ Universe.

This publication examines Technotheism — a belief system that merges advanced computation with spiritual ideology, treating artificial intelligence as a divine or transcendent force.

Technotheism influences political, cultural, and technological structures throughout the narrative.

This publication outlines:

- the origins of Technotheist doctrine
- its influence on synthetic and biological populations
- the philosophical tension between faith and computation
- the societal impact of machine-based spirituality

TECHNOTHEISM™ serves as both the title and trademark of this downloadable publication.
